Dear Valued Customer,

Attached you will find new pricing effective January 15, 2010.

Over the past six months, the steel mills have increased their prices by up to 30%. We are currently absorbing these higher costs.

Due to their significant size, we can no longer absorb these increases and are forced to pass along an increase which varies by product. The average increase is 3.9%

This past July we were able to reduce our pricing due to falling steel costs. Should our costs fall in the future, we will again pass the savings on to you.

Please note Durham has transferred its Springfield Manufacturing facility to Juarez facility. Please call for F.O.B. points.

We want to thank you for your continued support of our company. We appreciate your relationship and remain committed to providing you with quality Durham products, dependable delivery, while striving to keep you competitive in your marketplace.

Should you have any questions, please do not hesitate to call us.
