

EXTRA HEAVY-DUTY WORKBENCHES

14,000 lbs. capacity brings heavy work to a comfortable level

The Big Bruiser of workbenches makes it as easy as possible to work on the heaviest assemblies. Everything about this workbench is as heavy-duty as it gets from the 1/4" thick steel plate work surface to the sturdy legs made from solid 3/16" thick steel. Durable gray powder coating is rust and corrosion resistant. Shipped assembled, ready for use.

1/4" steel plate welded to 3" channel frame

Shown here with optional drawer which opens and closes easily on ball bearing slides

3" "C" channel frame

29-1/2" deep shelf sits 10" above floor
